

Electrical Contractors Licensed in North Carolina

Carolinas Electrical Contractors Association is again pleased to offer to you the CECA Code Course for your continuing education requirements as we have for the past 30 years.

Now in its **Eleventh Edition**, the **CECA Code Course is based on the changes as reflected in the 2020 NEC®** and meets the requirements of the NC Board of Examiners of Electrical Contractors (NCBEEC) for non-classroom continuing education & the Virginia Department of Professional and Occupational Regulation (DPOR) for continuing education and the Alabama Board of Electrical Contractors (ABEC).

- ❖ **Tests can be taken online at www.ceca-code-course.com at a 10% discount.** You may log in & out of the online test as many times as needed before completion. You will immediately see if question was answered correctly. Pay only after you successfully complete the test. For each question, the screen will show the 2020 NEC passage, the question and the 4 multiple choice answers.
Virginia no longer recognizes the online test. For CE credit in VA, tests must be taken in paper format.

If you prefer to take the test in Paper Format please fill out this form to have test(s) mailed to you:

The CECA Code Course manual & test(s) will be mailed to you. You will study the text along with the included material from the 2020 NEC®, take the test(s), & return the answer sheet(s) to our office. We will grade the test(s), report hours to the NC Licensing Board and/or the Virginia DPOR and/or the Alabama Electrical Licensing Board & email you a completion card.

Each 50 question test is good for 4 hours of CE Credit for NC and Alabama and good for 3 hours for Virginia
