

Electrical Contractors Licensed in North Carolina

Carolinas Electrical Contractors Association has been serving electrical contractors in the Carolinas since 1946.

If you need Continuing Education for the renewal of your electrical license....

We are pleased to offer to you the **CECA Code Course** for your continuing education requirements, as we have since 1991 when continuing education became required in North Carolina. The **CECA Code Course is based on the changes in the 2023 NEC®** and meets the requirements of the NC Board of Examiners of Electrical Contractors (NCBEEC) for non-classroom continuing education & the Virginia Department of Professional & Occupational Regulation (DPOR) and the Alabama Board of Electrical Contractors (ABEC).

If you would like to take the CECA Code Course, simply fill out this form to have test(s) mailed to you:

Your packet will include reference material from the 2023 NEC® and test(s). Take the test(s) and return the answer sheet(s) to the CECA office. We will grade the test(s), report hours to the NC Licensing Board and/or the Virginia DPOR and/or the Alabama Electrical Licensing Board & send you a completion card for your records.

Each 50 question test is good for 4 hours of Continuing Education for NC and Alabama - and for 3 hours for Virginia.
